1. INTRODUCTION

Karnes County, Texas ("County") is requesting sealed Proposals from qualified contractors to provide removal services for a County-owned metal frame structure located at:

111 W. CALVERT, KARNES CITY TEXAS 78118

The work includes complete removal of the identified metal framing/structures and related site restoration, as further described below.

Award will be made to the responsible contractor whose Proposal is determined to be most advantageous to the County, considering price and other evaluation factors set forth in this RFP.

This RFP does not commit the County to award a contract or pay any costs incurred in preparing a Proposal.

2. SCOPE OF WORK

The Contractor shall furnish all labor, supervision, equipment, tools, transportation, and incidentals necessary to:

1. Pre-Work / Site Preparation

- Attend a pre-construction meeting with the County and Architect.
- Visit and inspect the site prior to submitting a Proposal.
- Verify existing conditions, including access and proximity to other improvements.

- Coordinate with utility providers, as necessary, to disconnect or protect any utilities serving or near the structure.

2. Metal Structure Removal / Demolition

The structure to be removed generally consists of:

- Metal/steel framing located on an existing concrete slab.

Contractor shall:

- Safely dismantle and remove the entire metal framing;
- Remove and cap or make safe any abandoned conduits, piping, or attachments associated solely with the metal structure;
- Take all necessary precautions to protect adjacent structures, utilities, and property.

IMPORTANT – SLAB TO REMAIN; STEEL TO BE RETURNED TO INSTALLER:

- The existing concrete slab is to remain in place and is not part of this removal.
- All steel removed is to be returned to original installer.

• Contractor shall:

- Cut posts/columns flush with or slightly below the top of the slab;
- Grind or otherwise make safe any remaining metal at the slab surface so there are no sharp edges or trip hazards;
- Avoid cracking or damaging the slab to the extent reasonably practicable.

1. Debris Hauling and Disposal

- Load, haul, and legally dispose of all demolition debris at properly permitted facilities;
- Provide dump tickets/receipts upon request;
- Keep the site reasonably clean and free of loose debris during operations.

2. Environmental and Safety

- Comply with all applicable safety and environmental laws and regulations;
- Implement adequate dust, noise, and traffic control measures;
- Immediately notify the County of any suspected hazardous materials encountered and await direction before disturbing such materials further.

3. Site Restoration

- Remove all loose debris from the slab and surrounding area;
- Leave the slab and surrounding ground in a neat, broom-clean, and safe condition acceptable to the County.

4. Schedule

- Substantial completion of all work is required within 30 calendar days of Notice to Proceed.
- Contractor shall include a brief proposed schedule with the

Proposal.

3. MINIMUM CONTRACTOR QUALIFICATIONS

Contractor must:

- Be duly authorized to perform demolition/structure removal work in Texas;
- Maintain, at a minimum, the following insurance coverage (or such other limits as the County may set in the final contract):
 - Commercial General Liability: \$1,000,000.00 per occurrence / \$2,000,000.00 aggregate;
 - Automobile Liability: \$1,000,000.00 combined single limit;
 - Workers' Compensation: statutory (or qualified alternative coverage as allowed by law);
- Agree to comply with all Karnes County terms and conditions contained in the final contract.

4. RFP SCHEDULE (TENTATIVE)
